Sessional Instructor Position, Department of Computer Science

The Department of Computer Science invites applications for a Sessional Instructor to teach CPSC 313 during the Winter 2015 term. The position will commence January 1, 2015 and end April 30, 2015. Applicants must have a PhD in Computer Science.

CPSC 313 "Introduction to Computability"

An introduction to abstract models of sequential computation, including finite automata, regular expressions, context-free grammars, and Turing machines. Formal languages, including regular, context-free, and recursive languages, methods for classifying languages according to these types, and relationships among these classes.

The Department is one of Canada's leaders as evidenced by our commitment to excellence in research and teaching. It has an expansive graduate program and extensive state-of-the-art computing facilities. Calgary is a multicultural city that is the fastest growing city in Canada. Calgary enjoys a moderate climate located beside the natural beauty of the Rocky Mountains. Further information about the Department is available at http://www.cpsc.ucalgary.ca/.

A complete application should include curriculum vitae with e-mail address, a concise statement of teaching philosophy is required and a teaching dossier describing past teaching experience and approach. Candidates should arrange to have three letters of reference sent under separate cover as soon as possible to:

Erin Moloney

Department of Computer Science University of Calgary ICT 602, 2500 University Dr. NW Calgary, Alberta, Canada T2N 1N4

or email to: moloney@ucalgary.ca

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Applications will be accepted until December 2, 2014.

The University of Calgary respects, appreciates, and encourages diversity.
