   Lecture Sections:  
   L01, TR 15:30-16:45, Sonny Chan, MS 634, 210-9474, sonny.chan@ucalgary.ca  
   Office Hours: TR 10:00-11:00 or By Appointment  
   
   Course Website: http://pages.cpsc.ucalgary.ca/~sonny.chan/cpsc453  
   
   Computer Science Department Office, ICT 602, 220-6015, cpsc@cpsc.ucalgary.ca

2. Prerequisites: One of CPSC 319 or 331, one of MATH 211 or 213, and one of MATH 253, 267, 277, 283 or AMAT 219.  
   (http://www.ucalgary.ca/pubs/calendar/current/computer-science.html#3620)

3. Grading: The University policy on grading and related matters is described in sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:  
   Assignments (5) 50%  
   Midterm Exam 20%  
   (In-Class Thursday March 3rd, 2016)  
   Final Exam 30%  
   
   This course will have a Registrar’s Scheduled Final Exam.

4. Missed Components of Term Work: The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar. Section 3.6. It is the student’s responsibility to familiarize themselves with these regulations. See also Section E.6 of the University calendar.

5. Scheduled Out-of-Class Activities: REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME ACTIVITY. If you have a clash with this out-of-class activity, please inform your instructor as soon as possible so that alternative assignments can be arranged.

6. Course Materials:  
   (Required)  
   
   Online Course Components: Additional recommended readings will be posted to the course Desire2Learn site as needed.

7. Examination Policy: Examinations will be closed book, but a handwritten, two-sided, letter sized reference sheet will be allowed. Students should also read the Calendar, Section G, on examinations.

8. Approved Mandatory and Optional Course Supplemental Fees: None.

9. Writing across the Curriculum Statement: In this course, the quality of the student’s writing in the weighted components of the course will be a factor in the evaluation of these components. See also Section E.2 of the University Calendar.
10. **Human Studies Statement:** Not applicable. See also Section E.5 of the University Calendar.

11. **OTHER IMPORTANT INFORMATION FOR STUDENTS:**

   a) **Misconduct:** Academic misconduct (cheating, plagiarism, or any other form) is a very serious offense that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the University Calendar under Section K, Student Misconduct to inform yourself of definitions, processes and penalties.

   b) **Assembly Points:** In case of emergency during class time, be sure to FAMILIARIZE YOURSELF with the information on assembly points which can be found in each classroom and building.

   c) **Student Accommodations:** Students needing an Accommodation because of a Disability or medical condition should contact Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities available at http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf. Students needing an Accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to the Associate Head of Computer Science. Dr. Ben Stephenson, by email bdstephe@ucalgary.ca or phone 403-220-6781.

   d) **Safewalk:** Campus Security will escort individuals day or night (http://www.ucalgary.ca/security/safewalk/). Call 403-220-5333 for assistance. Use any campus phone, emergency phone or the yellow phones located at most parking lot pay booths.

   e) **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). As one consequence, students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information see also http://www.ucalgary.ca/secretariat/privacy

   f) **Student Union Information:** VP Academic (403) 220-3911 suvpaca@ucalgary.ca SU Faculty Rep (403) 220-3913 science1@su.ucalgary.ca, science2@su.ucalgary.ca and science3@su.ucalgary.ca. Student Ombuds Office: (403) 220-6420 ombuds@ucalgary.ca, http://ucalgary.ca/provost/students/ombuds

   g) **Internet and Electronic Device Information:** You can assume that in all classes that you attend your cell phone should be turned off unless instructed otherwise. All communications with other individuals via laptop computers, cell phones or other devices connectable to the internet in not allowed during class time unless specifically permitted by the instructor. If you violate this policy you may be asked to leave the classroom. Repeated abuse may result in a charge of misconduct.

   h) **U.S.R.I.:** At the University of Calgary feedback provided by students through the Universal Student ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses (www.ucalgary.ca/usri). Your responses make a difference – please participate in USRI surveys.

CPSC 453 Syllabus

Computer graphics describes the discipline concerned with generating or manipulating visual imagery using computational devices and methods. This course introduces the algorithmic and mathematical tools used to create a variety of digital images and effects. Topics are drawn from the three main subjects within computer graphics, to prepare students for the more advanced courses: modelling, rendering, and animation. Additional topics include fundamentals such as digital image representation, colour perception, image formation, and image processing.

Tentative Topics Covered:

1. **Fundamentals:**
   - Human colour perception, raster displays, image formation, perspective, geometric tools.

2. **Digital Images:**
   - Image representation, colour spaces, sampling, interpolation, image processing.

3. **Modelling:**
   - Parametric and implicit representations of curves and surfaces, polygonal meshes, scene representation, procedural techniques, intersection testing.

4. **Rendering:**
   - Perspective projection, transforms in 3D space, illumination, shading, texture mapping, hidden-surface removal.

5. **Animation:**
   - Parameterized motion, easing, physics-based animation, interactive systems.
